

Dear customer,

Ocean Machines (www.oceanmachines.com), supplier of packaging machines in South Africa is proud to present the COMPACK.

The Compack is an integrated version of the 14 head Multi Weigher and our Full Servo bagging machine. As the bucket size for the weigher is 500ml and the maximum reel width 400mm it will be very suitable for small bags. The full servo solution has a maximum speed of 100bpm (empty bag).

The system is controlled by just one touch screen and comes with Panasonic Servo as well as Panasonic PLC. The total machine height is only 223cm and no platform is needed.

[Click here](#) to visit the COMPACK product page, view the movie and download the brochure.

Ocean Machines
compact

- Complete Integration
- Full Servo
- 1 Single Interface
- Up to 100 BPM

Packaging Speed	Max 100 bpm
Number of Heads	14
Bucket Size	500ml
Hopper material	304 stainless steel
Maximum Dosing Volume	1000g
Weighing accuracy	± 0.3g -1.5g
Screen Size	10.4 inch touch screen
Maximum Film Width	400mm
Bag Width	60-130mm
Bag Length	50-230mm
Air Consumption	300 liter/min at 6 bar
Power Requirement	200V/50Hz/5Kw
Nett Weight	540kg

Kind regards,

Gabriel Walravens
